PROFESSIONAL EXPERIENCE

METROPOLITAN TRANSPORTATION AUTHORITY – MTA New York, NY

Data Strategy Analyst Intern – EAM, Strategic Initiatives Jul 2025 – Dec 2025

- Built analytics ecosystem on Azure Data Lake, deploying production-grade Power BI dashboards with KPI frameworks and GIS, translating complex datasets into self-service analytics that improved decision-making accuracy by 20%+.
- Optimized GIS analytical pipelines on Azure within HxGN EAM, improving data quality and enabling real-time operational dashboards for enterprise asset management.
- Conducted cohort-level benchmarking across operational datasets, driving a 15% improvement in system efficiency while streamlining project governance using Jira & Confluence, improving stakeholder alignment by 25%.

ERNST & YOUNG LLP (EY) Bengaluru, India

Advanced Analyst, Staff II – Business Consulting, SCM Product, Analytics & Strategy Dec 2022 – Aug 2024

- Spearheaded the EY ASTERISK SaaS platform's digital transformation, crafting product roadmaps and GTM strategies for AI-enabled, cloud-based SCM solutions, boosting supplier-vendor collaboration by 15% and reducing time-to-market by 20%.
- Orchestrated and maintained 45+ high-performance ETL data pipelines (Python, SQL, Azure Databricks, JS7 Schedulers, SSIS) powering supply-demand analytics for Fortune 500 clients across Automotive and FMCG, improving data accuracy by 30%.
- Deployed 10+ Power BI dashboards integrating KPIs, Geo-based vendor and supplier data into executive-level reporting frameworks for direct vendors, suppliers, and stakeholders, driving a 35% boost in operational efficiency through data-driven decision-making.
- Collaborated on development, infrastructure, and testing of 5 key product modules with cross-functional engineering and business teams under Agile/SDLC methodology, managing the full product lifecycle from requirements gathering through production release.
- Drove CRM integration and customer experience analytics, partnering with C-suite stakeholders and client executives to define product requirements, prioritize sprint backlogs, and streamline end-to-end product strategy.
- Achieved 25% improvement in team productivity by coordinating cross-functional delivery across consulting engagements, aligning product and business metrics with strategic goals, and optimizing operational workflows across multiple business units.

CONSILIO LLC Bengaluru, India

Data Operations Analyst Oct 2022 – Dec 2022

- Designed & implemented cloud-based data pipelines for legal eDiscovery forensics, enforcing data privacy compliance across 5,000+ legal records through optimized query performance and pipeline automation.
- Built data warehousing solutions and automated analytics workflows, improving pipeline efficiency by 20% and analytical output by 30%.

TECHNICAL SKILLS

Programming and Core: Python (Pandas, NumPy, PyTorch), SQL, C#, REST APIs, Git, Docker, Linux, MS Office Suite (Access, Excel, PowerPoint)

Data Engineering: ETL/ELT Pipelines, Apache Airflow, Data Modeling, Schema Design, Data Warehousing, Spark/Hadoop, Data Quality, Data Governance, CI/CD, dbt, Kafka, Snowflake (familiar)

Cloud and Databases: Azure Databricks, Azure Data Lake, AWS, PostgreSQL, Oracle, Microsoft SQL Server, MongoDB, GCP/BigQuery (familiar)

AI, BI and Analytics: Microsoft Power BI, Tableau, Data Visualization, Power Query, Predictive Analysis, Regression Modeling, A/B Testing, Hypothesis Testing, KPI Development, RapidMiner, Alteryx, GenAI, LLMs, AI/ML Modeling, XGBoost, SMOTE, TensorFlow, GIS

Tools and Methods: Jira, Confluence, Agile/Scrum, SDLC, ITIL, Product Management, Stakeholder Management, Business requirements Gathering, GTM Strategy, Cross-functional Collaboration, Supply Chain Analytics, Business Strategy, CRM Integration, CX, ServiceNow

EDUCATION

PACE UNIVERSITY – SEIDENBERG SCHOOL OF CS & IS New York, NY

MS, Computer & Information Systems | Data Science Engineering & Analytics | GPA: 3.8 May 2026

JAIN UNIVERSITY – SCHOOL OF CS & IT Bengaluru, India

BS, Computer Science | Applied CS, Cloud, Data & Analytics | GPA: 3.64 Jul 2022

CERTIFICATIONS & PROJECTS

- **AWS Solutions Architect Associate** (SAA-C03) – Amazon Web Services – Jan 2026
- **McKinsey Forward Program** – McKinsey & Company – Dec 2025
- Capstone Research: **"THE SUGGESTIVE BANKER":** Consumer Trust Factors in Proactive Agentic AI for Digital Banking – 2026
- SmartChurn: Customer credit card attrition prediction system using ML (Python, Tableau, Scikit-learn, XGBoost) **[GitHub]** – 2025
- HeartBeacon: Cardiovascular prediction model, 90% accuracy on 319K healthcare records (Python, Scikit-learn, SMOTE) **[GitHub]** – 2024
- Bipolar Occurrence Prediction via Machine Learning & Deep Learning (TensorFlow, PyTorch) – **Published Research Paper** – 2022
